Rudermann Countdown Documentation

Version 1.0

How to set the date?

Open file `index.html` and find `div .countDownClock`. Set date and time to `data-to-date`. Format `YYYY:MM:DD:hh:mm:ss`.

How to change twitter username?

Open file `index.html` and this string.

```
<script src="https://api.twitter.com/1/statuses/user_timeline/envato.json?  
callback=twitterCallback2&count=3"></script>
```

Change **envato** to your username.
